Introducing VIP paramedical services for large cases

Submitted by Victoria on March 23, 2021 - 12:39pm

Starting April 1, your high-net-worth clients will have access to an industry-leading level of paramedical services: Dynacare Insurance Solutions Platinum Paramedical Services. All applications with annual premium payments of \$100,000 or more will qualify for this service.

When you place your order, you'll be asked to confirm the face amount and premium for your applications.

Your clients will appreciate the professionalism of our exclusive Platinum Paramedical Services team. Dynacare Insurance Solutions has screened and trained a hand-picked group of health professionals to a high standard. This elite group of experienced, client-service-oriented individuals will have a lighter schedule, to ensure they can arrive early and take their time servicing client appointments. These health professionals have a dress code, more-stringent personal grooming standards (e.g., no fragrances), branded equipment and will help make your clients feel at ease when they enter their home or business.

Clinic visits

If clients must come into a clinic, Dynacare will arrange any needed services.

Clients will feel valued

With our new Dynacare Platinum service, your clients will feel special and valued throughout the paramedical process.
